

ENVIRONMENTAL IMPACT ASSESSMENT REPORT

ABC Foods Private Limited — Proposed Food Processing Unit

Project Identification

Applicant	ABC Foods Private Limited
Location	Plot 42, MIDC Industrial Area, Maharashtra
Site Area	5,000 sq.m.
Built-up Area	3,200 sq.m.
Activity	Food processing, packaging and cold storage
Assessment Period	2026

Project Summary

The proposed facility will process and package food products. This demonstration assessment considers water use, wastewater, air emissions, solid waste, noise, traffic and environmental safeguards.

Key Environmental Parameters

Water Requirement	45 KLD estimated
Wastewater	30 KLD estimated; proposed ETP
Air Emissions	Utility/boiler emissions subject to applicable conditions
Solid Waste	Source segregation and authorized disposal/recycling
Noise	Equipment maintenance and monitoring
Greenbelt	Landscaping along site boundary

Environmental Management Measures

Proposed measures include wastewater treatment, source segregation, environmental monitoring, preventive maintenance, safe chemical storage and emergency response procedures.

Note: Synthetic demonstration report; not an official EIA submission.
